Once selected, you just need to enter the grade levels for the school. Then answer if you taught lessons during the school day and/or after school. "Teaching" just means that you helped or presented NASP[®]-style archery lessons to the kids.

If you answer yes to teaching during the day or after school, It will ask you how kids students you worked with. Please make sure that you account for all students. For example, if after school, include all students that tried out for the team, not just the ones who are on the team now. In school, include all students from all classes that received archery lessons. After entering this info, select "Save"
